“ He enjoyed all his family be it direct or extended. The best memories I have of him is that he loved to cookout with his family and friends and would accept any that showed at his cookouts and really loved to give my mother,his Aunt, a jokingly hard time about an ice chest that she took off with after a cookout. Really going to miss him and regret not being around him as much as I should and could have. Rest in peace cousin.

“ Another good memory was when we hiked to the bottom of Grand Canyon with Charlie and Debi and Jim and Melba. Charlie put about 15 pounds of rocks in Jim's backpack. I think we were at the bottom before Charlie told Jim. It was a big laugh for everyone except Jim.

“ Loved hanging with Charlie. He was always so real and down to earth. We went to some drag races and to Vernon cruise with Charlie and Jake. He was always so much fun to be with, and he and Debi could always put on the best feedbag ever. RIP Charlie we loved you.
