“ Grew up with Wayne, playing soft ball, climbing trees, and riding our bikes on the dirt road to Grandma's house. We also went fishing a lot and playing in the creeks, building club houses. He even let me ride his motorcycle one day. I never had been on one before and he just handed it over to me. He will be missed, but great memories from our childhood.

“ Uncle Doyle fly high. We always loved you. Brodey I know was your pride and joy from the day he was born. Going to miss you forever. Wished we would have known you were sick. Brodey will always treasure all the letters, souvenirs and everything else you always got him. He loved coming to see you and bringing his boys. Jax always came home talking about all your cats. This is not goodbye we will see ya later. Love you always and forever.
