“ You helped make me the woman I am and I’ve been told I am pretty amazing. When I found out I was pregnant with Michael James I knew that if I could be just half the Mom you were and fight half as hard as you did that I’d be just fine in this world. You were loved more than you knew and will be remembered by more than you can imagined.

“ We are cousins and we grew up like family together. She was a lovable goofball and you never knew what to expect from her but it was always fun. I smile just thinking about her. I loved her very much and I will miss her. But I know I’ll see her again in heaven and we’ll continue to laugh together.

“ Anytime I saw her after my aunts passing she would always ask if there were any updates on her case. She also would tell me stories about my aunt. There is one story that she told me multiple times and I think because it was the funniest. She had given my aunt a bath in the sink and caught her eating cigarette ashes out of her ash tray! I will always remember the stories she has shared with me!
