“ Melvin worked with my Father doing a remodel of the Church in Oktaha when I was about 9. He had 2 little boys and a brand new baby girl. He took the time at luch to teach me how to weave keychains from tiny plastic strips. I've never forgotten this sweet man who took his time and patients to teach me both the square and the round weaving, such a sweet kind young man in his 20's. May he rest in peace. May his wife and children know he left sweet memories.
