“ *I remember my uncle Paul when he lived in NJ. My Dad, his brother Clarence Knell took us kids snow sleighing with a car hood! It was a lot of crazy fun until they decided to make a ramp. My dad went over the ramp, crashed and cut his eyebrow! My mom's birthday was July 22nd and I remember them celebrating at grand mom Knell's house together and laughing like crazy! God be with the family! He will be missed. My dad gives his condolences!*

“ *When I was young and Paul would come home from a tour of duty, he would wake me up before the rest of the family was awake. We would talk and laugh until the rest of the family awoke. I cherished those times. Just me and my brother.*
