“ The only time I ever saw Stacey without a smile was just after he and I survived two 360 loops in my '69 Dodge Dart after hydroplaning across the median just outside Muskogee! I think we both had sheer terror on our faces. So sad to know his smile won't brighten another room.

“ We would all set at the table in group and take turns reading out of the 12 steps and take turns speaking on whatever we needed.. and I know anytime there was a chance for him to read he would and every chance there was for him to speak he would and even give some of the newbies advice.. he knew he went down a rough road lately but he was determined to get it right. He said he wanted to be a better example for his sons and grand kids.. he needed to fly straight so that way he could take of them better.. he enjoyed being sober and was proud of himself and staying sober is not all that easy but I could tell he really meant it and his heart was in it.. that's the only time I really talked to Stacey or was round him but in that short time I could tell he was a good guy loyal friend and good father that loves his family.. I don't know what he was battling to feel like he had no other escape but he knew God and I know God is with him at the very moment...fly high Stacey you got loving family and friends that will miss you but never forget you! You will be pain free and in peace is one thing for sure... well see you soon again
