“ Tommy lived near me when we were young, and we were friends through high school as well as being friends with his Mom, Sue and brother, Rodney. I remember a good guy with a great sense of humor.

“ Many, many great childhood memories of Tommy. Just a good ole boy that was quick with a smile and always a fun guy to be around. I am sure he will be missed, but perhaps he's back on Clyde and climbing the side of a shale pit where others dare not to follow. Smooth riding Tommy.
